Fall Scavenger Hunt

Post Office

If you lived in Longport in the late 1800s, the postal system wasn't your only option to communicate with other people on Absecon Island and the neighboring communities – trolleys were extremely popular at the time as well. Atlantic City trolley service was extended to Longport in 1884; at this time, the trolley was still pulled by mules! The electric trolley system was installed in 1889, making your travels to visit local friends and family even easier.

Clues for next stop:

- Circle back to your favorite library for your final task of the Scavenger Hunt!
- Stop in the library and tell us something you learned on the scavenger hunt and you can claim your prize.
